## 1. PURPOSE AND SCOPE

National Gas Rules (NGR) allow for AEMO to make Retail Market Procedures (RMP). RMPs are the approved regulatory standards that place fundamental obligations on AEMO, Distributors and Retailers. The RMPs describe various obligations that facilitate interaction between parties in the market.

In relation to meter data, the RMPs contain obligations that apply if meter data is not available or unable to be obtained. These obligations often set out requirements to produce an estimated read. Weather data is often used in the calculation of an estimated read.

This document contains weather related information applicable for each jurisdiction where they are not prescribed in the RMP.

### 3. CHANGE PROCESS TO AMEND THIS REGISTER.

AEMO is responsible for maintaining weather related information described in this document.

At least 10 business days prior to making any amendment to weather related information below, AEMO must inform the Gas Retail Consultative Forum (GRCF) of the change.

### 4. SOUTH AUSTRALIAN WEATHER RELATED INFORMATION.
